

An Agro-Industrial Platform Project for HALAL Food Security of UAE

Engineer Giordano Luminoso is the President of FAA World, an Italian company which represents all aspects of the agro-food production, distribution and marketing through the building of food platforms around the world.

These platforms are then connected among themselves through a highly sophisticated satellite/IT systems allowing a wider marketing interaction, sell and purchasing network.

Endorsements and Invitations for discussions are coming from the prominent entities involved in the development of the Middle East countries. The Dubai Islamic Bank is one of the highly appreciated friend and backer of the project
