

Project in summary

- **SCOPE:** to guarantee, on a medium-long term basis, the food basic needs of the UAE people – or part of them and/or other Arabian Countries people – through a secured supply system from the network of the production and logistic platforms located in various producing Countries
- **PROJECT STRATEGY:**
 - a. Realization and management of a “Main Platform” in south Turkey of about 2,000 hectares to which an adequate number of farmers (more than 5,000 units) will convey their productions
 - b. Realization and management of a number of “Satellite Platforms” in several countries, so to reach the requested quantities and qualities standards

➤ **FOLLOW UP PROCEDURES:**

- ✓ Agreement between FAAWORLD and its Associates (the “Promoter”) and INVESTOR or other UAE Institutions (the “Developer”) finalized to carry-out a detailed Feasibility Study
- ✓ Incorporation of a NEWCO between the Developer, the shareholders and the stakeholders in order to finance and operate the Project under the coordination of FAA WORLD and its Associates
